SUMMARY

Business Analytics postgraduate student at Warwick Business School with a background in Computer Science Engineering and hands-on experience in financial analysis, sales analytics, CRM analytics, and business process optimisation across banking, technology, and FMCG sectors. Skilled in Python, SQL, Excel, data visualisation, reporting, and data-driven decision-making, with experience analysing operational and business datasets to generate actionable insights and improve organisational efficiency. Passionate about leveraging analytics, business intelligence, and problem-solving skills to support strategic decision-making and business growth**.**

EDUCATION & QUALIFICATIONS

Warwick Business School, UK *September 2025 - September 2026*
MSc Business Analytics

SRM University, India *September 2020 - June 2024* Bachelor of Technology - Computer Science and Engineering (*First Class)*
50% Merit-Based Scholarship Recipient

WORK & LEADERSHIP EXPERIENCE

Business Analytics Research Consultant, Coventry City Council, UK *May 2026 – Present*

- Conducted quantitative and qualitative analysis of transport, environmental, and demographic datasets to evaluate sustainable mobility initiatives, identify trends, and support data-driven strategic decision-making.
- Assessed policy effectiveness through stakeholder research, benchmarking, and business analysis techniques, identifying opportunities to improve accessibility, operational efficiency, and sustainability outcomes.
- Synthesised data from council reports, public datasets, and academic research to develop evidence-based recommendations, perform gap analysis, and support policy and business planning activities.
- Developed dashboards, reports, and executive presentations to communicate actionable insights, influence stakeholder engagement, and translate complex data into measurable business outcomes.

Business Analyst Intern, Union Bank of India, India *Nov 2024 – Jun 2025*

- Mapped and analysed reporting processes across Finance, HR and Credit to identify bottlenecks, reducing data processing time by 20%
- Worked with cross-functional stakeholders to streamline reporting workflows, reducing operational delays by 15%
- Cleaned and validated departmental data in Excel to improve reporting accuracy and support compliance requirements
- Produced monthly reports, financial summaries and compliance dashboards used for audit readiness and management decision-making

Data Analyst Intern, PepsiCo, India *May 2024 – Oct 2024*

- Analysed sales and operational datasets to identify revenue trends, performance gaps, and growth opportunities
- Cleaned, validated, and transformed large datasets to improve data quality and reporting accuracy
- Developed KPI reports and dashboards to monitor sales performance and operational efficiency

- Delivered actionable insights that supported forecasting, route optimisation, and business decision-making

---

EXTRA-CURRICULAR EXPERIENCE

Team Matrix Architects, Google Hackathon, WardnAI: AI Housing Compliance Platform *Mar 2026*

- Collaborated within a cross-functional team to develop WardnAI, an AI-powered housing compliance platform using Google Gemini, Firebase, and React to automate compliance monitoring, violation detection, and case management workflows
- Contributed to business analysis, workflow optimisation, and analytics-driven solution development by identifying operational inefficiencies, supporting KPI tracking, and proposing scalable AI-based compliance solutions
- Presented a fully functional prototype in a competitive Google Hackathon environment involving multiple teams, achieving 6th position through strategic problem-solving, teamwork, and effective solution presentation skills

Committee Volunteer, Warwick Consulting Society, UK Sep *2025 – Present*

- Supported the coordination of consulting workshops, networking events, and case-study sessions attended by 30+ students, assisting with event planning, participant engagement, and operational organisation activities
- Collaborated in business case study discussions involving market research, operational analysis, and strategic problem-solving, contributing structured recommendations and data-driven insights for real-world business scenarios

Society Member, Warwick Data Science Society, UK Sep *2025 – Present*

- Engaged in 10+ workshops, technical seminars, and collaborative learning sessions focused on Python, machine learning, data visualisation, and statistical analysis, strengthening analytical and data interpretation skills through hands-on exercises and case-study discussions
- Contributed to peer-led analytical activities and problem-solving sessions involving data-driven decision-making, business analytics concepts, and exploratory data analysis techniques
