SUMMARY

Business Analyst with an MSc in Business Analytics from Warwick Business School and hands-on experience across banking, local government and FMCG. Skilled in requirements gathering, process mapping, stakeholder management and data visualisation, using SQL, Python, Excel and Power BI to turn complex data into clear, actionable recommendations. Proven record of improving reporting efficiency and delivering evidence-based insights that drive better business decisions.

SKILLS

Business Analysis: Requirements Gathering & Elicitation, Business Requirements Documentation, User Stories, As-Is/To-Be Process Mapping (BPMN), Gap Analysis, Root Cause Analysis, Stakeholder Management, Business Case Development, UAT

Data & Analytics: Data Analysis, Data Visualisation, Dashboards, Data Cleansing & Validation, Segmentation, Forecasting

Methodologies: Agile (Scrum), Waterfall, SDLC, Continuous Process Improvement

Tools: SQL, Python, Power BI, Tableau, Advanced Excel (Power Query, Pivot Tables), Jira, Confluence, MS Visio

PROFESSIONAL EXPERIENCE

Business Analytics Research Consultant, Coventry City Council, UK *May 2026 – Present*

- Integrated and cleansed four Council programme datasets in Python, creating a single source of truth across 12 sectors.
- Designed KPIs, including a Transition Readiness Score and Sector Exposure Index from ONS and DfE data, revealing that 50% of SMEs had low readiness and Transport ranked lowest of all priority sectors.
- Segmented SMEs using K-means clustering and text analytics and visualised the results in Python (Matplotlib), revealing that 61% were disengaged and identifying a high-priority group for outreach.
- Performed gap analysis of support offered versus SME needs, validated it through a stakeholder questionnaire, and presented four recommendations to the Council, including refocusing Transport support on growth.

Business Analyst Intern, Union Bank of India, India *Nov 2024 – Jun 2025*

- Mapped As-Is and To-Be reporting processes across Finance, HR and Credit, applying root cause analysis to remove bottlenecks and reduce data processing time by 20%.
- Collaborated with cross-functional stakeholders to elicit and document business requirements, streamlining reporting workflows and reducing operational delays by 15%.
- Cleaned, reconciled and validated departmental data in Excel, improving reporting accuracy and strengthening compliance.
- Produced monthly MIS reports and compliance dashboards, supporting audit readiness and management decisions.

Data Analyst Intern, PepsiCo, India *May 2024 – Oct 2024*

- Analysed sales data to pinpoint revenue trends and underperforming areas, setting clear priorities for growth.
- Cleaned and transformed large, inconsistent datasets into one reliable source, improving KPI reporting accuracy.
- Built KPI dashboards on sales performance that informed demand forecasting and route optimisation decisions.

EDUCATION

Warwick Business School, UK *Sep 2025 – Sep 2026*
MSc Business Analytics

SRM University, India *Sep 2020 – Jun 2024*
Bachelor of Technology - Computer Science and Engineering (First Class, 50% Merit Scholarship)

EXTRA-CURRICULAR ACTIVITIES

Google Hackathon x NatWest – WardnAI: AI Housing Compliance Platform *Mar 2026*

- Defined business requirements and the end-to-end compliance workflow (monitoring, violation detection, case management) for WardnAI, built with Google Gemini, Firebase and React.
- Proposed KPIs and scalable solutions; presented a working prototype to judges, placing 6th.

Workshop Lead, Warwick Consulting Society, UK *Sep 2025 – Present*

- Led the planning and delivery of business case-study workshops for 30+ students.
- Facilitated sessions on structured problem-solving and stakeholder analysis.
